Design and User Interface

- LED lit front panel for a clearer visibility of the machine within the location.
- User friendly features such as a backlit shopper button and clear pricing screens.
- Premium design in aluminium with diamond cut suitable for all surroundings.

A simple design for a true automatic canteen

Flexible snack, food and drinks offer

Variable temperature options

Energy Label Available with this QR code

Highlights

- Cooler unit with R290 technology with extraction slides for easy access and maintenance.
- 8 or 10 drums with up to 36 compartments per drum (280 mm depth).
- Up to 40 different prices throughout the machine.
- Flexible snack offering - small snacks, cans and up to a 230 mm plated meal.
- Reduce downtime with independent drum operation - if one drum is damaged, out of order or being cleaned, the machine still operates.
- Save time on site - no tools required to adjust compartment sizes.

Electronica e gestione della temperatura

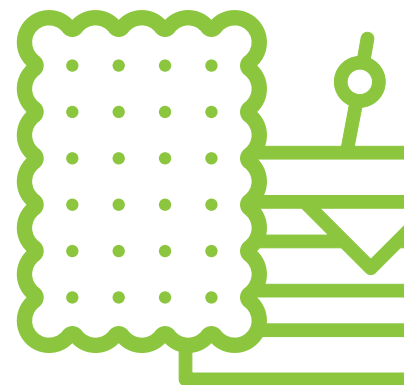

- Data transmission and retrieval according to EVA DTS standard.
- Advanced features for controlling temperature.
- Intelligent loading option - saving energy and preventing temperature fluctuations.
