

Quality and versatility.

All of Schaerer's best-in-cup quality, and all the flexibility in terms of drinks variety and machine portability.

From office-hero to star of the party.

Install it as a fixed coffee station by connecting it to the water mains, or take it just about anywhere thanks to its internal water tank.

Schaerer Coffee Skye.

*Take the Schaerer quality and variety anywhere you need to.
Serve delicious coffee and milk based specialties virtually everywhere.*

Versatility and style, everywhere.

Stylish and attractive, the new Schaerer Coffee Skye was designed for maximum flexibility as a fixed-station or mobile machine, offering great variety and uncompromising quality.

Its 4.9 litres internal water tank allows you to use it just about anywhere: in outdoors settings, on a terrace or in a conference room. Alternatively, connect it to the water mains, customise it with a choice of accessories and add-ons, and turn it into a permanent office landmark

for the most satisfying coffee-break in town! Its appealing design, its variety of coffee and milk-based specialties and its solid performance combined with great ease-of-use, make it the ideal choice for flexibility and quality.

An elegant design, highlighted by stylish detailing.

With its refined all-black livery, enhanced by red or black design elements, it will stand out in any situation as a stylish element of your setup. Whatever the scenario, Schaerer Coffee Skye perfectly adapts to your needs with striking natural elegance. The machine is conceived for efficiency and ease of use by staff or self-serving guests, whatever their level of proficiency.

Ideal for...

Small and medium-sized restaurants and hotels; offices; bakeries; convenience stores; self-service shops; petrol stations; catering operations as well as all locations that have limited space. Designed for ease of use, Schaerer Coffee Skye can adapt to all kinds of users, from first-timers self-serving guests to experienced staff thanks to 3 operating modes. Its wide 8" touch screen display is video enabled and can feature your regular promotions and advertisements.

Eclectic, Easygoing, Entertaining, Eventful. The new Schaerer Coffee Skye has a sparkling personality and is really versatile, stealing the show wherever you decide to use it, offering a great variety of delicious drinks and uncompromising quality.

Standard configuration.

An effective and comprehensive setup for your Coffee Skye, getting you ready to start delivering a variety of top quality coffee and milk based beverages.

The ideal all-rounder kit.

A solid performer with high daily/hourly output, Coffee Skye features a newly designed hopper with easy lock-on/off and a manual inlet for decaf or other blends.

Functional illumination

Colour-coded functional lights, on either side of the central outlet, indicate the status of the machine:

White - Machine ready

Yellow - Intervention required soon (refilling, cleaning, etc.)

Red - Machine error (milk empty, grinder blocked, water flow error, etc.)

Asymmetrical and monitored drip tray

750 ml drip tray with tray presence and fill level sensor for overflow protection. Tray is cut-out for easy removal and features handy cup positioner for smooth self-service operation. Closed tray or drain options available.

Internal water tank

The 4.9 litres internal water tank makes Schaefer Coffee Skye totally independent from the mains water supply, offering great flexibility in the positioning of your coffee station.

8" touch screen display

The wide, 8" display has a resolution of 1024x768 pixels and offers a rewarding and satisfying user experience. Coffee Skye's user interface features 3 integrated operation modes: Guest, Frequent user and Staff, for total ease of use whatever the level of proficiency. The screen is video enabled for you to run any promotion or advertisement easily and effectively.

Open up to a world of variety.

With Schaerer Coffee Skye's numerous options and accessories, upgrade your standard offer and easily adapt your machine to your evolving needs.

Customise your Coffee Skye to fit your style and delight your guests.

Customise your Coffee Skye to fit your style and delight your guests.

Boost your milk-based beverages offer with the **Pure Foam** pumped-milk system. Choose between cold or hot milk, or an enticing, homogeneous, creamy and fine pored foam - up to 60% foam content - for extra pleasure and variety. The system is also very easy to rinse and

clean. Add a separate hot water outlet for teas and infusions. **For the perfect Italian cappuccino or latte macchiato, you can choose between Powersteam or Supersteam.** Choose from the many other options and add-ons available to create your ideal work tool, perfectly adapted to your requirements and your personality.

You can **choose between the 16g and 30g brewing unit.** The larger brewing unit offers new possibilities for your coffee business, especially for large coffee drink recipes with double or triple shots. Not only can you save time, but also coffee powder.

Elegance and ease-of-use are the hallmark of the new Schaerer Coffee Skye.

Easy water.

No need to fill-up nor think about your water level: connect your Coffee Skye to the water mains, as an option, and set it up as a permanent location coffee station. The connection setup includes Schaerer's Uptime! system for top quality, scale-free water.

More hoppers, more choice.

Add another bean hopper and extra grinder alongside your standard central one, and complete your set with a single 2000g or twin 2x1000g powder hopper with a separate preparation system. Boost the variety of your offer with a number of delicious specialties. The new locking system makes it incredibly simple to insert and remove the hoppers instantly.

Milk hose openings on both sides.

Whatever the layout of your coffee station, the handy extra large openings on either side of your Schaerer Coffee Skye will make it easy to connect any external milk cooler. The hatches integrate seamlessly and elegantly into the design of the machine, while contributing to its versatility and functionality.

Simplified installation.

Installing your new Schaerer Coffee Skye has never been so easy. All the connections required for the installation are accessible from the front. No tools are required to remove the connection piece for the waste water hose. Simple hose mounting for the under-counter device, without disassembling the side walls.

Standard equipment, options, accessories.

STANDARD EQUIPMENT:

8.0" touch screen display

Video capable 1024x768 px high resolution screen with three integrated operation modes: Guest mode, Frequent user mode and Staff mode.

Single grinder

750 g top mounting bean hopper with manual inlet hatch for decaf and other blends.

Hot water on the left

A separate hot water outlet on the left for tea and other beverages,. Particularly suited for service areas.

Functional illumination

Functional status lights placed on both side of the central outlet.

Black housing and splash zone

Elegant all-black livery for machine body and splash zone, with refined red/black detailing.

OPTIONAL FEATURES:

Manual outlet with single/double coffee spout including relief chamber. Manually adjustable height from 65 mm to 185 mm.

Internal water tank

4.9 l capacity internal water tank, with closed and monitored drip tray.

Pure Foam milk system

Preparation of temperature-controlled hot milk & hot milk foam, as well as cold milk for variety of beverage options.

Up to 2 grinders

Add a second grinder and 750 g bean hopper to offer variety of coffee blends.

Single/twin powder

Add single 2000 g or twin 2x1000 g topping powder hopper for extra variety of beverage options.

Schaerer Coffee Link: your digital intelligence

Schaerer Coffee Link is a digital service platform providing a powerful, real-time tool for the monitoring and the optimisation of your coffee operation.

> OPTIONAL FEATURES:

**Central hot water outlet**

Central outlet doubles as hot water dispenser for teas and infusions.

**Powersteam or Supersteam on the right**

Powersteam: Manual heating and foaming of the milk. Supersteam: Fully automatic heating and frothing of the milk (temperature and foaming can be programmed).

**Brewing accelerator or additional water**

Extra efficiency during peak hours and better quality in large servings beverages (e.g. Americano).

**Espresso blades**

Add special espresso blades to any of the two grinders, or both, for that real Italian feel.

**Electrical adjustment per grinder**

Grinders can each be electrically adjusted according to preferences and bean type.

ACCESSORIES:

**Under-counter grounds disposal**

Expands ground-cakes disposal capacity, and machine autonomy, whilst freeing up counter space.

**Fixed water connection with Uptime!**

Connect your machine to mains water supply. Includes Schaefer's Uptime! system.

**Payment systems**

Standard payment systems as per MDB standard. The coin changer, card reader, etc. can be easily connected to the coffee machine.

**Side cooling unit 1x7l**

The external cooling unit holds up to 7 litres of fresh milk. The cooling unit can be stored in a spare space on the side (right and left possible).

**Cooling unit 1x10l**

The external cooling unit allows to store up to 10 litres of fresh milk. This cooling unit can be placed in some spare space on the side also as Centre Milk or under the counter.

For more details on specific accessoires, please take a look at our add-on device brochure.
